

REBOUNDER XD* CHANNELIZERS

Super reinforced flange for 16# or 30# base lock stability

Custom In-Molded, permanent logo option available

Material:

Linear Low-Density Polyethylene

Color:

UV Stabilized Highway Orange

Height:

42" (1.07m)

Weight:

3.0 lbs. (1.36kg.) approx. (excludes base)

Thickness

.080" (2 mm)

Features

Reshaping Technology

Fracture-Resistant Handle

Locking Base

Rebounder XD*

Highest level of endurance and duty life cycle

Any depression on any part of the channelizer will remarkably rebound to its original shape allowing continual usage regardless of the severity or temperature.

This is truly a breakthrough in technology meeting application. The NEW and EXCLUSIVE Rebounder XD* uses a memory material that can be reformed to its original shape after vehicle impact. And climate conditions have no effect whatsoever on its performance.

Additionally, the flange has been specifically designed to greatly increase locking stability to bases, assuring a robust channelizer/base lock-up. There are many channelizers available—only a Rebounder XD* comes back to you.

*Xtreme Duty
